TO: Minerals File

FROM: Tom Munson, Reclamation Specialist 

RE: Site Inspection, Jack Roberts, 3 Guys Rock and Gem #1 Project, S/027/081, Millard County, Utah

Date of Inspection: September 12, 2000  
Time of Inspection: 11:45 a.m.  
Conditions: Sunny  
Participants: Larry Garahana, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site while in the area

There is some garbage around the area, some tires, some old tanks, a pile about 20 feet by 20 feet by 10-12 feet high of crushed clinoptolite. There is a cut in the mountain which is probably ½ acre in size, and looks like an old truck bed up there; some timbers, old chutes and things. According to the BLM, Jack took this over from Tony Aquire of Diversified Stone Products.

It does not appear that anything has been done here. The trash and debris just needs to be removed. We need to contact Jack to see if he will clean up the site.
